This charity run benefits the **NATIONAL KIDNEY FOUNDATION OF WISCONSIN**

## Can We Count on You?

Ask your family, friends, and neighbors to donate money to the National Kidney Foundation of Wisconsin?

We *help* people who have diabetes or high blood pressure through screening and kidney health community education programs.

We *educate* the public about donating healthy food to pantries so families living with medical conditions can make nutritious meals.

We *connect* face-to-face in communities throughout Wisconsin with FREE screening and wellness programs.

We *believe* in safety and give over 1,100 patients medical identification bracelets each year.

We *inspire* men and women to consider becoming organ, tissue or eye donors when they sign their driver's license.

We *create* access through our on-demand free educational programs.

We *listen* with respect and compassion to each and every caller to our Helpline.
