PROGRAM INFORMATION

The Medical College of Wisconsin Department of Surgery is proud to partner with the National Kidney Foundation of Wisconsin to present the 2017 Patient and Provider Vascular Access Symposium: The Dialysis Journey—LearningTogether.

The unique interactive agenda is designed to educate and empower BOTH patients and providers together in one setting.

**Thursday, October 26, 2017 | 2:00 to 8:00 pm
Hampton Inn and Suites | West Allis**

PURPOSE

The world of hemodialysis is rapidly changing.

During this program, providers and patients will:

- Gain perspectives on how the new Center for Medicare Services (CMS) care models of the future will change hemodialysis.
- Understand how a surgeon provides a functional and durable hemodialysis access and the vital role caregivers and patients play in maintaining the health of the access.
- Learn strategies to cope with the physical and emotional challenges of hemodialysis.

At the conclusion of the Symposium, providers and patients alike will feel more positive, motivated, and empowered about the *dialysis journey*.

EDUCATIONAL OBJECTIVES

Participants will:

- Learn how the new ESRD care models and reimbursement paradigms being proposed by the CMS will impact patients and patient care.
- Understand the emotional barriers and anxiety associated with hemodialysis.
- Gain new knowledge of the natural history of access failure and practical strategies to prolong the life of the vascular access.
- Explore strategies which encourage and integrate patient self-advocacy.

EDUCATIONAL METHOD

The format will include lectures from leaders in each field along with discussion.

TARGET AUDIENCE

This symposium will be beneficial to:

- Physicians
- APPs
- Nurses
- Dialysis Technicians
- Patients
- Caregivers
- Family Members
